

### Capability Statement

Taylor Made Training & Safety is family owned business based in beautiful Mackay. Operating for 20 years in a training capacity and now expanding to include return to work services, safety consulting, on-site safety contracting, safety system creation, personalise safe work instructions, procedures, risk assessments and emergency planning in mining, manufacturing, construction, transport and emergency services industries. We also manage WorkCover injuries, return to work rehabilitation and are an approved WorkCover Queensland Provider.

We make your business better and safer. A safer workplace is a more productive workplace. Our services save you money - as the need for a full-time health and safety officer is not needed for those smaller and medium businesses.
